# Key to my Heart

## Door Knob Basket

**Base Dimensions: 4"x6" Finished Dimensions: 6"x8"x5"H**

### Material List

- 1/2 Flat—stakes
- 3/8 Flat—weavers
- #3 Round dyed and natural—weavers
- 1/4 Flat Oval—weavers
- 1/2 Flat Oval—rims
- #2 Seagrass—rim filler
- 3mm Flat Oval—lasher
- 7mm Flat—base filler
- 1—10" leather handle

Perfect basket to hang on a door knob and hold keys and mail. Unique double twining adds a creative accent to this simple, useful basket. Try different color variations and even two colors. Solid, filled base measures 4"x6".

1. From 1/2F cut 7 stakes 18" long and 5 stakes 21" long. Also cut 4 filler stakes 12" from 7MMFR. Soak stakes and a long piece of #3 round reed. Mark middles of each stake on bad side of reed.
2. Lay 5-21" stakes horizontally with the 7MM filler stakes in between each stake. Begin weaving vertical stakes beginning over the first stake closest to you and on the middle marks. Continue weaving in the remaining 6 stakes—three on each side of the middle stake.
3. True base to 4x6. Tuck filler stakes to the inside, under the third stake from the left and right. Twine a locking row of #3RR around the base. Upset stakes.
4. Weave three rows of 3/8F start/stop.
5. Double twine (twine with two *pairs* of weavers) two rows of #3RR dyed.
6. Weave four rows of 1/4FO start/stop.
7. Double twine (twine with two *pairs* of weavers) two rows of #3RRdyed.
8. Weave three rows 3/8F—last row will be false rim row.
9. Cut and tuck your stakes.
10. Begin clipping on your inside and outside rims, after you have scarfed them for a nice fit, covering up the last row of 3/8F. Slip your leather handle on the outside rim, lining the handle loops upon the second stake from the right and left. Insert your seagrass rim filler.
11. Lash your rim using 3MM FO.
12. Trim hairs, sign and date and stain with Weaver's Stain if you choose.
